ARTSA DATA

What are we doing now

- Providing Excel Reports
- Never Registered VIN report

What could be done

- Forecasting
- More access to raw data
- Smarter reports
- Reregistration of vehicles

ARTSA DATA

Never Registered VIN reports

- Vehicles that have been manufactured but not yet registered are in this database
- Represents the 'backlog' of vehicles that will be registered
- More vehicles in the pipe means registrations will be going up in the future

Full VIN data

- Working on tracking VIN lifecycle
- Reregistration may be an effective metric of market strength
